INTRODUCTION

Everything began with a dream to make comfort a reality. With passion, diligence, commitment and honesty we created wonderful things for a better world. We began with the switches, moving on to automation, progressively towards LEDs, gradually touching every metaphor of a good smart home. And now we are proud to introduce ceiling fans that will carry the GM logo.

With a proper research in design and material, GM fan range has grown with a design aesthetic of clean lines, correct proportions and a less-is-more philosophy. We use crisp, precision metalwork by artisans with tremendous experience in the industry. We believe in sustainability based on the simple premise that if something is well made and beautiful it will have a long and useful life.

SLEEK, STYLISH AND POWERFUL
